

PARISH COMMUNITY SUPPORT

Helping you to
take the next
steps in your
social action

PARISH COMMUNITY AUDIT

We provide custom report containing analysis of community needs & potential future opportunities along with suggestions for ongoing development.

PROJECT DEVELOPMENT

We help you turn ideas into reality. This could be some direction around a funding bid, connecting you to wider support & expertise or providing practical advice on how to get started.

WORKSHOP FACILITATION

We combine theological reflection with practical discussions on social action. We help you review your social action, evaluate changed priorities & resources to focus on the way ahead.

"How do we clarify and unite around a vision for our community?"

"What does our community need?"

"Can you help us make choices about which projects to focus on?"

"How can we grow our church through social action?"

WELLSPRINGS TOGETHER

Faith in action transforming communities together across the Anglican Diocese of Leeds

Wellsprings Together, a charity in partnership with the Diocese of Leeds, exists as a free additional resource to support churches to make a difference in their communities.

Our team members are specialists in parish-based community engagement and are experienced in helping churches to take the next steps in their social action.

Whether that is enabling you to identify the key needs in your area, running workshops around a vision for your community engagement, helping you develop partnerships with others around you or helping you secure funding for your project, we are here to help provide capacity and expertise for you.

We work to your timescales and support your local and regional initiatives to help you see transformed communities where God has placed you.

"Wellsprings helped us to step back and consider our engagement with our community from a wider and long-term perspective. They helped us to understand our parish better, its needs and opportunities as well as drawing out how our vision and calling might inform the shape of our mission in our context."

"We found Wellsprings responsive, flexible and discerning and they brought clarity to our missional priorities and next steps - for which we're really grateful!"
